

# TRADITION ALONGSIDE INNOVATION

## MARINE NAVIGATIONAL SUPPLIES

**KH Charts is the world's largest stockist and distributor of paper charts, navigational data and marine technical publications. A huge amount of resource goes into ensuring up-to-date paper charts and publications are in stock and fully corrected in multiple strategic locations around the world.**

### PAPER CHARTS AND PUBLICATIONS

Our charts are kept up-to-date on a daily basis and there are over 50,000 in stock at any one time. The procedures in place allow our skilled correctors to maintain the highest, Admiralty audited, standards.

Corrected Admiralty charts, charts of the USA from NOAA and AGA, Australian and Japanese charts are all stocked, as are charts from many other hydrographic offices around the world. As the world leader in marine navigational supplies, we also have brands dedicated to the supply of charts and publications for super yachts and leisure boating.

Our extensive product portfolio and experience enables KH Charts to offer a complete range of services for the maintenance of your paper products and safety of life at sea (SOLAS) compliance.

### ADMIRALTY

Admiralty produces over 3,300 Standard Nautical Charts and a wide range of thematic charts for specialist use.

Sailing Directions are designed for use by the merchant mariner on all classes of ocean-going vessels with essential information on all aspects of navigation. Sailing Directions are complementary to Admiralty Standard Nautical Charts and provide worldwide coverage in 74 volumes.

The Admiralty List of Radio Signals provides comprehensive information on all aspects of maritime radio communications. The data is organised into six volumes, some are divided into several parts for ease of handling.

The Admiralty List of Lights provides extensive information on all lighthouses, lightships, lit floating marks (over 8m in height), fog signals and other lights of navigational significance. Other publications complete the range including titles such as The Mariners Handbook and the Admiralty Guide to Updating.

### NATIONAL CHARTS

KH Charts, as the number one global supplier of navigations charts and publications has agreements in place with relevant national authorities to enable us to supply you with all your paper chart and publication requirements. In addition to British Admiralty we are official distributors of US, Canadian, Dutch and Japanese charts.

# MARINE NAVIGATIONAL SUPPLIES

KH Charts has a solution for every single aspect of marine charts use, management and compliance. These services have been developed over years of listening to our customers and offer the most flexible, efficient and compliant solutions.

## CHART MAINTENANCE

Charts are continuously being updated, sometimes with a number of corrections needed for each chart along a route. The workload is high especially when it comes to a vessel carrying many charts covering multiple routes. KH Charts has an extensive tracings service that addresses this very issue, removing the burden from the mariner and providing a reliable method of ensuring up-to-date folios of charts.

Tracings are distributed weekly or at other intervals according to requirements and can be shipped directly to vessels or consolidated for delivery to offices or shipping agents.

- Efficient and accurate correcting method
- Up to 90% time saving in chart correction process

## LOOSE LEAF

One of many solutions first delivered to the market by KH Charts. This is a Loose Leaf service to the Admiralty List of Lights and Radio Signals.

- Efficient and accurate correcting method
- Simple single page replacement method
- Comes complete in update packs

## GLOBAL PRICING

No other chart distributor can offer full global pricing. No matter where you take delivery of products our global pricing scheme means the prices you pay will stay the same in the same currency. Making things easy... the KH Charts way.
